

Progress Report on
DIGGING OF BORE AND SUPPLY OF POTABLE WATER FOR CHENCHU COMMUNITIES
In
NEMALAKUNTA CHENCHU GUDEM
of Bandi Atmakur Mandal in Nandyal District

Executed by

CHAITANYA KALA BHARATHI,

D.No.29/178-22 H, S.B.I. Colony, Ramalayam Temple, NANDYAL – 518 501

Nandyal District, Andhra Pradesh

PREAMBLE

WATER – THE ELIXIR OF LIFE

Nemalakunta Chenchu Gudem is a small tribal settlement where there are 68 families belonging to Chenchu communities. The total population of the colony is around 258.

The major problem of this Chenchu Gudem is that they are away from the main village, and deviated from the main Road. They do not have proper transportation and other basic facilities including potable water for the families in the Chenchu Gudem.

THE PROPOSAL

Having visited Nemalakunta Chenchu Gudem, the CKB team interacted with the communities there and understood that they are very badly suffering due to the non-availability potable water, and their very immediate requirement is to have some arrangement for supply of water to the entire communities.

Having noted down this issue, CHAITANYA KALA BHARATHI, has submitted a project proposal to Global Compassion Inc. Thanks to Global Compassion Inc., who have very much looked into the proposal and positively responded to our request and honoured the need of the communities.

THE IMPLEMENTATION

On 19th August 2022, CKB initiated the work of digging bore well in the Chenchu Gudem. A reputed bore driller agency was contacted for undertaking this work. The work started

in the presence of the village elders and women members who have performed tradition Pooja before initiating the work.

The project was a success as the water level was touched at 260 ft, initially. However, the yield was very low, and also it was advised by the fellow village elders and the technical team that there is a need to go further to ensure water availability even during Summer season. According to their advice, the digging work was extended and at a depth of around 400 ft., a much more better spring of water was touched, and the yield was very good.

At this point the digging was stopped, and a casing pipe to a depth of 60 ft was inserted to assure that there is no slipping or closure of bore due to any natural accidents etc.

Followed by this, an electrical submersible pump was fixed to the bore point to fetch water from the underground.

In the meantime, a storage tank of 3000 liters capacity was erected near the bore point, firmly installed on a cement pillar. Cistern system was arrangement was made to fit the taps to draw water from the tank, so that multiple people can collect water at the same time.

THE INAUGURATION

The entire facility was inaugurated on 6th September 2022. The inauguration of the project of supplying water was done in the presence of Mrs. Kancharla Sobharani, the Surpanch, and Mr. Chinna Linga Reddy, Vice-Surpanch, of Kancharla, under which jurisdiction this village comes. Inaugurating the facility, they have requested Mr. Vijaya Bhaskar, President of CKB, to share their gratitude to Mr. Hans and Ms. Stephanie for their generous support to the entire Colony.

In the words of Rudrappa, the Chenchu Gudem leader "we are so happy to have this facility in our Gudem. I have no words to

express my gratitude to Global Compasion Inc. who have listened to our problem, and supported us in this noble work. Similarly, we would like to express our thanks to Chaitanya Kala Bharathi, who have taken all the pains and initiate to support us in finding a solution to the entire Chenchu Gudem."

DETAILS OF EXPENDITURE FOR THE PROJECT

S.No.	Details		Expenditure incurred
1	Cost of drilling the bore	400 ft x Rs.115	46,000
2	Cost of Casing Pipe	60 ft x Rs.400	24,000
3	Cost of Electric Submersible pump with accessories		58,000
4	Cost of Water Tank	3000 liters	23,500
5	Cost of cement, bricks, sand, stone chips etc.		10,300
6	Cost of Electricity service wire, thread, pipes fitting etc.		3,650
7	Transportation charges		3,200
8	Cost of plaque stone, Banners and Posters		3,500
9	Supervision of the work, Labour charges for the construction of pillar and fixing the tank etc.		12,500
Total expenditure			184,650
	Grant Received from Global Compassion Inc.	US\$ 2250 x Rs.76.98	173,205
	Contributions from different sources		11,445

MEDICA COVERAGE OF THE ACTIVITY

Installation of Drinking Water Tank in Chenchu Gudem

చెంచుగూడెంలో మంచినీటి ట్యాంకు ఏర్పాటు

మంచి నీటి ట్యాంకును ప్రారంభిస్తున్న దృశ్యం

బండి ఆత్మకూర్ : మండలంలోని నిమ్మలకుంట చెంచుగూడెం అడవి బిడ్డలకు చైతన్య కళాభారతి సంస్థ ఆధ్వర్యంలో రూ 1.60 లక్షలతో మంచినీటి బోరు వేసి 3000 లీటర్ల సింథటిక్ ట్యాంకును ఏర్పాటు చేశారు. రక్షిత మంచినీరు లేక ఇబ్బందులు పడుతున్న విషయాన్ని సర్పంచ్ కంచర్ల శోభారాణి, ఉపసర్పంచ్ చిన్న లింగారెడ్డి ద్వారా తెలుసుకొని చైతన్య కళాభారతి సంస్థ అధ్యక్షుడు విజయభాస్కర్ మంగళవారం ఏర్పాటు చేశారు. నెమలకుంట గూడానికి చెందిన మహిళలు, పురుషులు చైతన్య కళాభారతి సంస్థకు అభినందనలు తెలిపారు. ఈ కార్యక్రమంలో గిరిజనులు, తదితరులు పాల్గొన్నారు.
