INTRODUCTION

Chaithanya Kala Bharathi, has been running a Home for the Senior Citizens, in Velgode village, where it has constructed a building to give them shelter, food and other basic facilities with the support of service minded Institutional Donors and Individuals.

As a part of providing water facilities to the inmates, CKB has asked Global Compassion Inc., USA

seeking support for digging a Borewell to enable the inmates to fetch water without much difficulty.

Thanks to Ms. Moureen, who has sponsored an amount of \$1000 for this human purpose through Global Compassion Inc.

THE IMPLEMENTATION

On receipt of the amount, we have immediately taken up the digging of Borewell and fitting it with a submersible motor to draw the water. Followed by this, a cistern was installed by constructing a Cement Pillar.

This cistern was connected to the Bore with Motor. Now the senior citizens can access the

water from this facility for their day to day usage.

Our gratitude to **Ms. Moureen**, for the generous donation, kindness and humane attitude of support. We also would like to take this opportunity to thank you all on behalf of all the inmates of the Home.
