A brief note on the various activities carried out by the organization, during the reporting period is given hereunder.

⇒ DISTRIBUTION OF BICYCLES TO THE SCHOOL GOING GIRL CHILDREN

It is one of the facts that the dropout of girl children from schools after primary school education is due to lack of proper and convenient transportation to go to the higher schools which are located at the distance places from their villages. The girls have to catch an auto, which will be over-crowded in the rural context, and go to the schools. This creates problems in the villages, as they have to travel along with the boys and youngsters in a congested seating mode. Hence, majority of the families do tend towards stopping their girl children from going to schools outside their villages.

As a part of supporting the girl children, to overcome this social and family concern, which stops them from continuing their studies, CKB, has identified 45 girl students studying in 6th and 7th classes, and supplied each of them with bicycles of Lady Bird Hazel company, known for their good standards.

This distribution programme was organized on 1st November 2019, in the Zilla Praja Parishad High School premises of Gospadu village, on the occasion of our State Formation Day.

Mr. Silpa Ravi Chandra Kishore Reddy, local Member of Parliament, and other Mandal level executives like Mandal Development officer Mrs. Sugunasri, Mandal Education Officer Mr. Khader Basha and Sub Inspector of Police Mr. Thimma Reddy, were the honourable chief guests for this programme.

The chief guests, Mr. Silpa Ravi Chandra Kishore Reddy and others spoke on the importance of education of girl child, and they felt that this types of support, if extended to the girl children, it will help in the decrease in the drop out of the girl children from school, and to continue their education.

The MLA appreciated the good initiative taken by CKB and for the support provided by Global Compassion Inc., USA, in this noble activity.
