The present report of activities carried out by Chaitanya Kala Bharathi is a brief presentation of different activities executed by the organization during the financial year 2022-23 with the support of different funding agencies extending grant-in-aid.

During the financial year 202-23, the organization received grant-in-aid from the following sources.

- Global Compassion Inc., USA – Providing drinking water in Nemalakunta Chenchu Gudem through digging of borewell and setting up of storage water tank with cistern.

Along with this, the organization has also extended its support to supply nutritional food kits to the Chenchu families in Bommilingam village of Prakasham District.

They have also supported the organization by extending support to conduct skills training in Maggam and Painting works to 30 women in Nandyal.

- SOS ENFANTS ABANDONNES ASBL, Belgium – Provided safe drinking water facility to 2 schools by installing RO System in the schools of Akumalla and Narayanapuram villages of Nandyal District.
- Kapasi International Relief and Education Assistance (KIREA), Canada – Provided drinking water facility in NAYANI CHERUVU CHENCHU GUDEM village by digging a drinking water borewell with handpump.
- The Shamadasani Foundation, Hong Kong – Supplied a Dry Ration kit with 7 essential dry ration items to 22 families in Bommalingam village of Prakasham District
- ESA-Humanitarian Relief Fund, The Netherlands – Supplied Educational material; bicycles to 100 school children of Basavini families and Adoni and Alur.
- World Commission, Switzerland – Supplied Educational Material and Nutritional Food Kits to 30 HIV Positive school children in Nandyal.
- Strathspey Charitable Trust, UK – Providing safe and clean drinking water to the Chenchu and Yanadi families through Handpump with water tank with cistern in Nayudupalyam in Pullalacheruvu mandal of Prakasham District.
- Max Brose Hilfe e.v., Germany – Providing Educational Materials, Bicycles, and support nutritional food kits to the people living with HIV Positive girl students coming from Nandyal and Anantapur Leprosy Colony.

## PROVIDING SAFE DRINKING WATER IN TWO SCHOOLS

With the support of SOS ENFANTS ABANDONNES ASBL, Belgium, CKB has provided safe drinking water facility in the High Schools located in Akumalla and Narayanapuram villages of Nandyal District. Both the villages have high schools with classes running from 3<sup>rd</sup> class to 10<sup>th</sup> class. The student strength together is around 800 students of both sexes.

Chaitanya Kala Bharathi has contacted the local Gram Panchayaths in both the villages, to make arrangements to extend water supply upto the school campuses, which the GP has agreed and provided.

CKB has initiated the work of placing orders for the supply of RO Unit for both these schools along with other requirements. The suppliers have come up with the needy material and their technical staff installed the RO Unit and the overhead tank in all technical aspects without compromising on any issue related to qualitative aspects.

The works in both the schools were completed in 3 days a piece, and the schools were provided with safe drinking water system.

Soon after the successful installation of the units, CKB organized meetings in these schools by inviting the school staff, Mandal Education Officer, the Headmasters of the schools, School Parent Committee members, in each of these schools, and inaugurated the utilities for the benefit of the students.

It is a pleasure to Chaitanya Kala Bharathi, to express its gratitude to SOS ENFANTS ABANDONNES ASBL, on behalf of the communities in these two villages and the school staff and students. The issue of unsafe drinking water is a big problem in most of the parts of this area, with specific focus on the tribal zones.

## INSTALLATION OF HAND-PUMP FOR SUPPLY OF DRINKING WATER

This project was supported by Kapasi International Relief and Education Assistance (KIREA), Canada

NAYANI CHERUVU CHENCHU GUEDEM is a small tribal settlement where there are 48 families belonging to Chenchu communities having a total population of around 212.

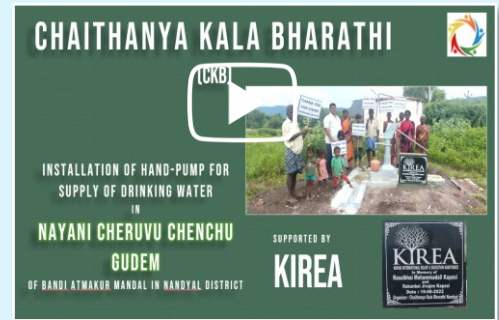

Chaitanya Kala Bharathi, has noticed an acute drinking water problem in this Chenchu Gudem. They have to fetch water from a distant water canal, which is the only source of water. The communities suffer a lot during summer season when the canal dries up. During that time, they have to go to the distant agricultural fields to fetch a pot of water which is not clean and pure, as it is mixed with mud and other such impure particles.

KIREA positively responded to our request to dig a bore well and provide drinking water to this Gudem. On 19<sup>th</sup> August 2022, CKB initiated the work of digging borewell in the presence of the villagers, with the women performing the tradition Pooja before initiating the work.

The project was a success as the water level was touched at 240ft, to the delight of everyone in the Chenchu Gudem. The water was very pure and tasty too, and the yield was very good. After the digging of the borewell, the handpump set was installed and fixed on the bore so that the villagers can draw water manually. At the same time a platform was also constructed with provision for the run-off water.

The entire facility was inaugurated in the presence of the villagers, who have expressed their utmost happiness for this asset their village has got with the support of KIREA.

CKB takes this opportunity to extend its heartfelt gratitude to the members of KIREA for their humane support of providing drinking water facility to the people of this Chenchu Gudem.

## SUPPLY OF DRY RATION KIT TO ECONOMICALLY POOR FAMILIES

Shamadasini Foundation has extended support to provide Essential Food grains and nutritional items to poorest of the poor. The grant was received twice by CKB, and during the first sanction, Dry Ration Kits were supplied in Bommalingam Gudem, and during the second sanction, the support was extended to the Scavenger families in Nandyal.

At Bommalingam Chenchu Gudem, with the support of Shamadasini Foundation CKB has distributed Dry Ration Kits with 7 Essential dry ration items to 22 families in Bommalingam Gudem of Prakasham District.

As a part of this program CKB visited the village with all the ration items. A small meeting was conducted to explain about the sponsor of this program and to give them the moral support that their case will be taken to the notice of the local government so that they will get required support in the coming short time.

Followed by this, the team members have distributed the Dry Ration Items to the identified beneficiaries.

At Nandyal, CKB has identified 15 scavenger families which need support as they are economically poor. These 15 families were supplied with dry ration kits to give them a support for about one month period. They were supplied with a kit of 7 items.

In addition to this, with the same support we have also identified 10 senior citizens living in economically poor conditions and in vulnerable conditions were provided with Saries, Mosquito nets and a Bedsheet.

## DISTRIBUTION OF NUTRITIONAL FOOD KITS TO THE CHENCHU FAMILIES

This program is supported by Global Compassion Inc., USA,

Bommalingam village has a lot of problems and the families to be supported in this village are more keeping in view the geographical conditions of this village and the income generation avenues. This village has a Chenchu gudem which is away from the main road and the people are devoid of several basic facilities.

Having no alternative income generation activities to the communities, they have a lot of sufferings to make a sustainable livelihood for the family.

Under the given situation, CKB has focused more to access needy support to reach as many families as we can. In this attempt, we have also received ample support from Global Compassion Inc., USA to supply nutritional food items to 42 needy families.

We have identified several families which need support in this village. Out of this, we have selected 42 needy families to get supported with the support of Global Compassion Inc, USA, and supplied them with nutritional food kits to the Chenchu families. The kit included 13 different essential kitchen items which will serve them for about 1 month period, which were given to the families in a simple program organized in the village.

The identified families came to the place we have identified for the distribution of the items with small bags to get their part of the ration. The CKB team has distributed the same to them.

CKB takes this opportunity to thank Global Compassion Inc. USA for their humanitarian support to these communities.

## SKILL DEVELOPMENT TRAINING PROGRAM FOR WOMEN IN MAGGAM AND PAINTING WORKS

This program was conducted by Chaitanya Kala Bharathi with the support of Global Compassion Inc., USA.

As a part of this training 30 women were trained in the skills of Maggam and Painting Works. The duration of the training was for 3 months. A qualified trainer Mrs. Danamma was contacted for the conduct of this training and she was appointed as the official trainer for the entire training period.

Under Maggam component the trainees have learned making designs on various types of clothes and cloths. This was a training focussed exclusively on women wear. They have learned the skills in arts like Zari Patch Work; Aari Work; Patch Work; Kundan Work; Bead Work; Mirror Work.

Under the Painting component, the trainees were trained on the use of different colours to create beautiful designs with paints, which bring attractiveness and beauty to the clothes. They were training about the usage of brushes of different types and different sizes. Various types of painting designs were supplied to them and they were asked to practice them.

The organization has supplied the entire raw material to the trainees during the project period. At the end of the training, the organization has gifted the equipment that they have used during the training period, so that they can start working from their home and make assured sustainable income while working from home. They trainees were also awarded training course completion certificates after the completion of the training.

The trainees were very happy about the training conducted, and have expressed their gratitude to Global Compassion Inc., USA. Chaitanya Kala Bharathi also takes this opportunity to extend its heartfelt gratitude to Global Compassion Inc., USA, for being kind enough to extend financial support for such an important program.

## PROVIDING DRINKING WATER IN NEMALAKUNTA CHENCHU GUEDEM THROUGH DIGGING OF BOREWELL AND SETTING UP OF STORAGE WATER TANK WITH CISTERN.

Nemalakunta Chenchu Gudem is a small tribal settlement where there are 68 families belonging to Chenchu communities. The total population of the colony is around 258.

The CKB team interacted with the communities and understood that they are very badly suffering due to the non-availability of potable water, and their very immediate requirement is to have some arrangement for supply of water to the entire communities.

Thanks to Global Compassion Inc., who have very much looked into the proposal and positively responded to our request and honored the need of the communities. CKB initiated the work of digging bore well in the Chenchu Gudem. A reputed bore driller agency was contacted for undertaking this work. The work started in the presence of the village elders and women members who have performed tradition Pooja before initiating the work.

The project was a success as the water level was touched at 260 ft. However, keeping in view the water levels during summer season, the digging work was extended and at a depth of around 400 ft., a much more better spring of water was touched, and the yield was very good.

An electrical submersible pump was fixed to the bore point to fetch water from the underground and a storage tank of 3000 liters capacity was erected near the bore point, firmly installed on a cement pillar. Cistern system arrangement was made to fit the taps to draw water from the tank, so that multiple people can collect water at the same time.

The communities have expressed their heartfelt thanks to Global Compassion Inc., USA, and CKB joins them to express its thanks for their needy support to the communities in this village.

## SUPPLIED EDUCATIONAL MATERIAL & BICYCLES TO 100 SCHOOL CHILDREN OF BASAVINI FAMILIES AND ADONI AND ALUR

This program is implemented with the support of ESA-Humanitarian Relief Fund, The Netherlands. CKB is extensively focusing in extending helping hand to the Basivini families – the old traditional system which has its evil impact on the youth of these families.

As a part of promoting education among the children of these Basivini families, CKB requested ESA-Humanitarian Relief Fund, The Netherlands to come forward to extend support to 100 students of Basivini families with educational material and bicycles to enable them to reach their schools without depending on others and continue their studies.

In both Alur and Adoni town, the Basivini system is still in existence, and CKB is taking several efforts in coordination with the government departments. Two meetings were organized, on each at Alur town, and Adoni town, during which the girl students were supplied with Educational Material and a Bicycle.

At Alur town a total of 45 students were benefited in this school. These students are coming from 13 different villages who are studying in different schools. At Adoni town 55 students were supported with this package of study material and bicycles.

The students felt amazed with the gifts they have received from ESA-Humanitarian Relief Fund, The Netherlands through CKB. The students as well as the guests who attended these meetings have requested CKB to extend their thanks to the sponsors and to continue their support for such enabling cause.

CKB takes this opportunity to extend gratitude from its end to ESA-Humanitarian Relief Fund, The Netherlands, for their great support to promote schooling and education of these girl students.

## DISTRIBUTION OF EDUCATIONAL MATERIAL AND NUTRITIONAL FOOD KITS TO 30 HIV POSITIVE SCHOOL CHILDREN

This program is supported by The World Commission, Switzerland to support the school children who come from HIV Positive and Leprosy Families.

Chaitanya Kala Bharathi is paying extensive focus towards the physical, social, and psychological empowerment of families where there is a untold suffering due to HIV infection, and Leprosy infections.

As a part of this objective, the organization is approaching various funding agencies to extend support to the children (with specific reference to the girls) studying in the schools and colleges. In this effort, The World Commission, Switzerland has extended its great support to the request of CKB in granting support to 30 girl students studying in different classes at their school levels.

As a part of this, CKB has organized a meeting near Ramalayam, in Nandyal town to distribute the following materials to the identified beneficiary girl students. The chief guests for this program was Mrs. Nagini Reddy, Managing Director, Silpa Mahila Sahakara Bank Pvt., Ltd., Nandyal, Mrs. Shai Mahabunnisa, Chairman, Nandyal Municipality, Dr. Anki Reddy, Municipal Medical Officer, and Mrs. Sudharani, Nestham District Coordinator.

All the identified students were supplied with a kit of (1) Rice, (2) Redgram; (3) Cooking Oil; (4) Sugar; (5) Jaggery; (6) Green Gram; (7) Green Peas; (8) Wheat Flour; (9) Wheat Rava; and (10) Finger Millet Flour. They were also supplied with Educational materials like Note books, Geometry Box; and being the girl students, we have also supplied them with Sanitary Pad which will last for one year (12 packets).

## PROVIDING SAFE AND CLEAN DRINKING WATER TO THE CHENCHU AND YANADI FAMILIES IN NAYUDUPALYAM VILLAGE

This project is implemented with the support of Strathspey Charitable Trust, UK.

Nayudupalyam is a small tribal settlement where families of Chenchu and Yanadi communities, both are of the nomadic nature. There are about 51 families residing in this Gudem which has a severe water scarcity.

Chaitanya Kala Bharathi has taken up the project of providing water supply to the families in Nayudupalyam village in Pullalacheruvu mandal of Prakasham District with the humanitarian support of Strathspey Charitable Trust, who have granted the program.

The digging took place in the presence of the villagers, and the ground water level was very deep in this village. The water table was touched at a feet of about 500 ft, indicating the dire situation of groundwater table in this area.

After the completion of the drilling of bore, pipeline was drawn to the nearby place which is convenient for the communities to fetch water. CKB has constructed a basement with cement where a Nylon Water Tank of the capacity of 2000 liters was installed with cistern.

The communities have expressed their happiness on providing this facility to them, and also requested CKB to forward their heartfelt thanks to Strathspey Charitable Trust, UK. CKB too joins them in thanking the Donors for their kind support.

## SUPPORT TO HIV POSITIVE AND LEPROSY STUDENTS

With the support of MAX-BORSE-HILFE, eV & 1/DEUTSCHES STIFTUNGSZENTRUM GMBH, Germany, Chaitanya Kalabharathi, Nandyala, has organized programs to extend support to HIV Positives and Leprosy affected families. This program was organized in two phases.

The first phase was organized at Leprosy Colony, located on the Anantapur. The chief guests for this event were, Ms. Anupama, Additional DM & HO, Anantapur, and the other dignitaries attended were Mr. G. Veeranjanyulu, President of Ananta Network of Positives, Anantapur, Mr. Janardhan from Alambana Trust, Anantapur. During this program a total of 60 members have attended from the leprosy families. A total of 20 students, studying from 7th class to 9th class, from these families were given a bicycle each.

The second phase was organized at Ramalayam compound, in Nandyal town. The chief guests for this event were, Dr. Anki Reddy, Municipal Medical Officer, Nandyal, Mr. Balaju, Addl. DM & HO, TB and Leprosy Unit, Govt. Gen. Hospital, Nandyal along with the President and Boar member of CKB.

During this program a total of 120 members have attended from the HIV infected and affected families. A total of 60 students, studying from 7th class to 9th class, from these families were given a bicycle each.

In both the programs, these selected students were also supplied with study material which included Note books, Geometry Boxes, Long Note Books; and Sanitary pads for the girls. A package of Nutritional Kit was also distributed to these families which included 18 different types of items which helps in improving their immunity.

CKB takes this opportunity to thank MAX-BORSE-HILFE, eV & 1/DEUTSCHES STIFTUNGSZENTRUM GMBH, Germany for their kind support to these students and their families.
